Advancing the Fundamentals

FREE Workshop for Professionals

March 26, 2015

8:30 Registration

9:00 am—4:30 pm

**Providence
Care**
Community Brain Injury Services

braininjuryhelp.ca
Acquired Brain Injury System Navigation
of Southeastern Ontario

Enhance current knowledge of challenges associated with brain injury. This workshop will be suitable for professionals with a fundamental understanding of brain injury who wish to add new skills and approaches to their repertoire. The day long workshop will include:

- ◆ **Cognitive Impairments and Behaviour** with Dr. Lindy Kilik, Neuropsychologist
- ◆ **Communication** with Mary Ellen Thompson, Speech-Language Pathologist
- ◆ **Fatigue and Energy Conservation** with Becky Moran, Occupational Therapist
- ◆ **Mental Health and ABI** with Dr. Adil Al-Mousawi, Neuropsychiatrist

The target audience will be those providing rehabilitation and support within the community or long-term care sectors, including **Allied Health Professionals, Rehabilitation Workers, Care Coordinators, and Case Managers.**

Goals include:

- ◆ Greater ease in accurately identifying the effects of ABI
- ◆ Integration of the use of best practices in your work
- ◆ Tools and strategies to accommodate challenges
- ◆ Enhanced confidence and competence working with individuals with ABI

Cost: Free
